

**LUCKNOW MODEL COLLEGE OF PHARMACY, SADRAUNA, LUCKNOW**  
**M.PHARM II<sup>nd</sup> YEAR (III<sup>rd</sup> SEMESTER)**  
**BATCH II<sup>nd</sup> SESSION (2025-2027)**  
**M.PHARM PROJECT TOPIC ALLOTMENT**

S.No.	Project Title	Allotted students	Allotted Internal Guide
1.	Development and evaluation of silver nanoparticle-loaded Curcuma longa hydrogel for enhancing wound healing activity.	Kunal Narang	Mr. Israr Ahmad
2.	QbD-Based Development and Optimization of Rivaroxaban-Loaded Solid Lipid Nanoparticles for Improved Oral Delivery.	Priyanshu Yadav	Mr. Najeebullah
3.	Preparation and Characterization of Chitosan-Based Polyherbal Nanoemulgel for Enhanced Wound Healing Activity.	Himanshi Pandey	Ms. Sandhya Kumari
4.	Design, Optimization, and Characterization of Nano embedded Losartan Potassium Transdermal Therapeutic System.	Kajal Mauarya	Mrs. Sadhana Singh
5.	Development of Thermosensitive Hydrogel for Sustained Release of Anti-Inflammatory Drugs.	Aditi Rajpoot	Mrs. Sadhana Singh
6.	Optimization and Evaluation of Mucoadhesive Hydrogel Using Natural and Synthetic Polymers for Controlled Drug Release.	Pranav Kr. Singh	Mr. Sunil Mishra
7.	Formulation and Evaluation of Herbal Drug Loaded Liposomes for Enhanced Solubility and Therapeutic Activity.	Nikita Dubey	Mr. Dheeraj Kushwaha
8.	Development and Evaluation of Nanoliposomal Drug Delivery System for Enhanced Solubility and Controlled Release of Poorly Soluble Drugs.	Abdul Aleem	Mr. Israr Ahmad
9.	Development and Evaluation of Quercetin-Loaded Nanoliposomal Drug Delivery System for Enhanced Oral Bioavailability and Controlled Release.	Riya Singh	Mrs. Sarita Rawat

**LUCKNOW MODEL COLLEGE OF PHARMACY, SADRAUNA, LUCKNOW**  
**M.PHARM II<sup>nd</sup> YEAR (III<sup>rd</sup> SEMESTER)**  
**BATCH II<sup>nd</sup> SESSION (2025-2027)**  
**M.PHARM PROJECT TOPIC ALLOTMENT**

10.	Development of PEGylated Quercetin Liposomes for Enhanced Solubility and Sustained Oral Drug Delivery.	Naimish Gupta	Mr. Najeebullah
11.	Development and Evaluation of Nanoemulgel Containing Adenium obesum Root Extract for Topical Drug Delivery”	Abhishek Maurya	Mr. Sunil Mishra
12.	Development and Evaluation of Adenium obesum Root Extract-Loaded Microspheres for Sustained Herbal Drug Delivery.	Sonali Vishwakarma	Ms. Sandhya Kumari
13.	Formulation and Evaluation of Taste-Masked Fast Dissolving Oral Films Containing Drug-Loaded Nanoparticles.	Shweta Yadav	Mrs. Sarita Rawat
14.	Development and Evaluation of Polyherbal Emulgel for Enhanced Topical Drug Delivery.	Ravi Ojha	Mr. Dheeraj Kushwaha

**Note: All students are instructed to contact their allotted project guide regarding the project work.**

**Director**  
**Prof. Dr. Shashank Tiwari**
